

# India Tech Concrete Solution Pvt. Ltd.

(An ISO 9001-2015 Certified Company)

H.O.: No.3, Jawaharlal Nehru Salai, Ekkattuthangal, Chennai – 600 032. Mob.: 9677022104

## Company Profile:

'India Tech' was established in the year 1992 with a mission to provide state of art Concrete block making products and allied services by providing exceptional customer service and quality at fair price.

We with proven ability and expertise key members manufacture state of the art CONCRETE BLOCK MACHINES, MOULD SETS, PAN-MIXERS, CONVEYOR SYSTEMS AND ALL OTHER MATERIAL HANDLING SYSTEMS. Our expertise team is dedicated to develop, innovate and improvise on the existing feature from time to time based on exceeding customer expectation.

'India Tech' initially started off by repairing and modification of mould sets and concrete block machines later on our services extended to manufacture mould sets and machines for various construction and infrastructure industries.

In the year 1994 the company reached its first milestone by manufacturing semi auto concrete block machines with mould sets, installed successfully on site for making of SRW (segmental retaining wall) blocks; Eventually the company went commercial in the year 1996 by manufacturing concrete block machines based on client requirements for various contractors and infra projects evoking a tremendous reputation.

ITCSPL reached yet another milestone in the year 2000, when we bagged our first NHAI order to provide plant and machinery for making SRW blocks on site in South India.

Our core team of engineering experts with their wide range of experience over the years developed an alternate raw material for making mould sets at par with international standards, which paved way for wider market opportunities catering to the need of imported high end machines.

Our innovative team came up with a fully automatic machine- IT900 series in the year 2003, followed by the next generation machine in 2006.

Our company was elevated to a status of limited company as "India Tech Concrete Solution Pvt Ltd" in 2008, which brought about newer openings in exports of our products.

We are accredited as an MSME unit and member of TANSTIA and EEPC.

### **"An ISO 9001-2015 Certified Company" Certified by BSCIC.**

We have also participated in various exhibitions for construction machineries and equipments across India, to mention, it was a privilege to participate in EXCON'09, EXCON'11, EXCON'13, EXCON'15 and EXCON'17 in Bangalore, BAICON 2012 & BAICON 2015 in Chennai and India INVESTRADE 2014 in Sri Lanka, ConMac 2015 in Guwahati.

ITCSPL has now launched its one of the most advanced and versatile product- IT2000 series – Fusion model, which is compact and rugged in construction with high end performance at par with international standards.

We are proud to mention that with over 25 years of experience and continuous development and improvisation of our products we have established a very strong clientele base across India and also overseas Businesses in Dubai, Philipines, Oman and Brunei, Uganda & Kenya.
