

Meta-Paver +

A Perfect Fusion of
Global Technology and
Indigenous Design
at Affordable cost

Concrete block machines |
Concrete mixing systems
Belt conveyors | Block transfer &
handling systems
Weigh batching system |
Mould sets
Custom made designs &
Value added services

Technical specifications:

Power requirement	28 HP
Operating pressure	80 bar
Controls	PLC with HMI
Pallet size	750 x 550 x 8 mm (Steel)
Product range	60 to 300 mm
Dimension	6050 x 1630x 2800 (H)mm
Weight apprx.	3000 kgs

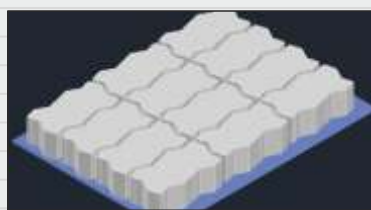

Meta-Paver +

Production Capacity

Product : Uni-regular paver
Size : 80x112.5x225 mm
Blocks/Pallet : 12
Cycle time (Sec) : 15
8 hour (Nos.) : 23040

Product : Rectangular paver
Size : 100x100x200mm
Blocks/Pallet : 15
Cycle time (Sec) : 15
8 hour (Nos.) : 28800

Product : Flyash brick
Size : 70x110x230mm
Blocks/Pallet : 18
Cycle time (Sec) : 12
8 hour (Nos.) : 43200

Salient feature:

- Compact and rugged construction with heavy duty tubular main frame sections for stability & durability
- High-end performance hydraulic power pack with heat exchanger fixed for non-stop production
- High-tech control panel with PLC and HMI
- Easy mobility
- Automatic pallet feeder & receiver mechanism
- High vibration force for optimal filling
- Auto stacker/off-bearer, top layer attachment at optional

We also manufacture block machines with 550x500mm and 700x600mm pallet size.
